

MARINE TECHNICIAN

We are looking to hire a skilled Marine Technician/Mechanic to join our experienced team. Experienced Marine Mechanics preferred, certification a plus. Strong diagnostic skills, small/large engines, diesel and gas knowledge (inboards, I/O's and outboards), electrical, plumbing, AC, steering, and hydraulics knowledge, etc... Mercury experience/certification would be a plus. Comfortable working outside on land and in the water in all weather conditions. Must own basic mechanics tools to perform the job. Able to lift heavy objects and work in confined spaces. Very strong attention to quality of work and detail. Able to work independently and with a team. Must have good verbal and written communications.

- High aptitude in marine mechanics and systems
- Marine Certification a plus
- Basic marine tools
- Team player
- Good communication skill
- Professional manner and customer service

Competitive salary to correspond with experience.
